

# PREDRAG LONČAREVIĆ

SOFTWARE ENGINEERING

## ABOUT ME

Passionate graduate in Software Engineering with a strong background in programming. I discovered my love for coding during high school and have since been honing my skills through extensive coursework, participation in IT camps, hands-on projects during my studies, and professional internships. I am a dedicated team player with analytical skills and an insatiable thirst for learning and development. My career goals include further enhancing my software engineering skills and contributing to the industry through innovative projects.

## WORK EXPERIENCE

### Software Engineer

**Insicon**, Belgrade - Serbia

**1.2024 -**

I worked as a full stack developer, focusing on updating our company's application designed specifically for insurance companies. My responsibilities included implementing new features, improving functionality, and ensuring the application met industry standards

### JavaScript developer

**Levi9**, Belgrade - Serbia

**7.2022 - 8.2022.**

Worked as a JavaScript developer with a team lead in my University group. Successfully created more than 5 web applications and coordinated a team with more than 20 participants

### Freelance -

**Upwork**, Worldwide

**2019 - 2021**

I have had the opportunity to work on the development of websites for diverse international clients, gaining valuable experience in crafting online solutions that cater to a global audience.
